

PROFESSIONAL JET-VAC SERVICES

- * SEWER MAIN
- * STORM DRAIN
- * LATERAL JETTING
- * HYDRO-EXCAVATING
- * EMERGENCY RESPONSE
- BYPASS PUMPING &
PUMP STATION CLEANING

PROVIDING SERVICES TO:

- Town of Millsboro, DE
- DSWA
- Town of Selbyville, DE
- Town of Bridgeville, DE
- McGinn & Associates
- Town of Laurel, DE
- Camden-Wyoming Sewer
& Water Authority

Our 8-foot telescoping boom lets the operator position the 8" suction tubes up to a 90-degree angle for far reaches from the truck, while the water pump delivers up to 80 gpm @ 2,500 psi for jetting operations. The 600' hose reel telescopes and rotates for optimum positioning for jet rodding sewers.

PROFESSIONAL VIDEO INSPECTION SERVICES

State of the Art Equipment and a highly trained, experienced Inspection Crew.

Our Crew is trained to know and report on issues that might cause problems and every detail of the pipe line is recorded and reported on in our detailed reports.

Video inspection in pipelines can help to identify the following issues:

- Cracked sewer lateral
- Bellied drain line
- Separated lateral joint
- Debris blockage
- Root intrusion
- Leaking pipe joints
- Deteriorated Piping Materials
